

CONSTRUCTION PROGRESS — The viewer gets a bird's eye glance at the new disposal plant now under construction in east Cameron. The four-basin system is about 30 percent complete. The wall in the upper corner is 12 feet high. Construction is

nearing completion on the Cameron filtration plant, which officials say, will be ready for use in April. This photo was taken from a dike overlooking the disposal plant construction.

\$1,000 Goal Set By County Board For Easter Seals

The Crippled Children's Society has mailed 3,000 letters to Milam County residents this week containing 100 Easter Seals.

Those receiving the letters are asked to mail checks for \$1 or as much more as they can spare, and keep and use the stamps. The Milam County society hopes to raise \$1,000. Seventy-five percent of this will be used locally.

"This is the only national organization which aids all types of crippling caused by disease or accident," stated Mrs. Bill Burns, county board president. She also reminds countians that funds are also used to rehabilitate crippled adults.

Other county officers are Mrs. J. E. Goley, Jr., drive chairman, Richard Williams, treasurer, and Mrs. J. B. White, publicity chairman. Cameron board members are Mrs. Burns, Mrs. R. J. Woodum, Mrs. Niley J. Smith, Mrs. O. B. Harden, Mrs. B. F. Robinson, Mrs. Stanley Hughes and Mrs. Frank Luecke.

Authorities Seeking Two-Time Escapees

Law enforcement officers are still seeking two escapees from the Milam County jail that broke out for the second time Friday night.

The escaped duo are Clairen Vernon Huddleston, 23, and Paul McKenzie, 29. Both were being held pending trial on charges of burglary.

The two men and Edwin Holland, a Negro, escaped early February 23 from the Milam County Jail, but were apprehended February 28.

Sheriff Carl Black arrested Holland in a west Cameron bar the same day state highway patrolmen picked up Huddleston and McKenzie near Troy in Bell County.

Holland did not attempt to escape with Huddleston and McKenzie the second time. He awaits trial on burglary charges.

Sheriff Black told The Herald the two men apparently pulled a heavy steel cell door from its hinges and pried apart bars in the barred door to a jail hallway. Then they forced open bars on an outside window and escaped down a improvised rope of mop strings tied together.

Milam ASC Extends Withdrawal Deadline

The 1958 Soil Bank Acreage Reserve Program regulations have been amended to allow producers additional time to withdraw their cotton soil bank agreements, Gib Terry, county ASC chairman has announced.

The new deadline is March 28. Requests to withdraw from the program must be filed in writing at the Milam County ASC office in Cameron, not later than March 28, Terry said.

tentiary trailed the pair as far as the intersection of the Santa Fe and South Pacific tracks. Authorities believe the men may have jumped a freight.

Sheriff Black said that the metal in the steel bars was easily broken by the escaped duo. They wedged the bars out of the hall door with the huge steel door.

THROUGH HERE Two Milam County jail escapees pried bars out of the hallway door (upper left) with a heavy steel door they took off the hinges inside the cell block. Once in the hallway, they forced their way through the outside bars of the window shown right and down to the ground on a rope made of mop strings. Authorities still are seeking the two-time jail breakers. They escaped through the same outside window both times, officials said.

Jaycees Elect Crockett Prexy

Cameron Jaycees elected Bill Crockett president of the local civic club for the 1958-59 year.

Other new officers include Frank Luecke, vice-president, and James Kahler, secretary-treasurer.

Richard Williams was re-elected state director.

Don Humble is out-going president. New officers will be formally installed at a dinner later this spring.

The new Jaycee board of directors is: Humble, Milton Brown, Monroe Marek and Dr. George Bowman.

Darrel Shuffield, 25, Suffers Knife Wound

Darrel Shuffield, about 25, formerly of Cameron and now at Freeport, Saturday suffered severe injuries in a cutting incident at Kennon's Place, according to Police Chief Maynard Byers.

Shuffield is recovering from a knife wound in the abdomen received in a scuffle Saturday night. Police are questioning Ben Kennon, cafe proprietor in connection with the incident. No charges had been filed at presstime.

Chief Byers said blood was rushed by police from Waco to save Shuffield's life. The trip took 50 minutes with units from Waco, Temple and Cameron participating.

Hundreds View Science Exhibits; Winners Named

Hundreds of Cameronites viewed the Science Fair displays Thursday night at Yoe Gymnasium during National School Week.

School officials announced that Roger Terry won the top Sweepstakes prize of \$25 for a one-tube electric organ he exhibited.

Second sweepstakes \$15 winner was James Manning whose display was the Solvey process of making baking soda. Third sweepstakes prize of \$10 went to Delores Zalesky for her exhibit of the internal structure of a fish.

In the physical science competition Eddie Pavelek was top winner with a solar still, Carol Heitman second with an exhibit of a jet aircraft and Mary Ellen Richter third with a display of distillation of crude oil.

Top three winners in the biological division were: John Wayne Josey, beehive display; second, Grady Gill, collection of reptiles; and third, Ronald Plentl, collection of insects.

The Science Fair climaxed a week of open house activities in the Cameron school system, Supt. Wiley Loughmiller termed National Public School Week a big success in the local system.

Students exhibited dozens of science displays in the Thursday Science Fair.

Judges were Dr. David Shapiro, C. A. Jackett, Dr. George Bowman, Earl Curtis and two Rockdale High School science teachers, Mrs. Patsy Nance, YHS science instructor, directed the Fair.

Sharp To Maintain 12-Grade Schools

Sharp School will maintain a 12-grade system next year minus football and vocational agriculture.

School officials voted to continue the present system for another year at a recent meeting.

The board ordered a trustee election April 15 at Sharp and Val Verde. Leroy Laffere and George Hasch are candidates for the vacancies at Sharp while Ervin Tylor has filed for the vacancy at Val Verde. V. L. Pierce is not seeking re-election.

H. C. Killough and Lannis Petty will be election judges.

Sharp school board members also elected seven teachers for the 1958-59 year. They are: Mrs. Luene Gersbach, Mrs. Bobbie Petty, Mrs. Sarah Shelton, Mrs. Ray Green, Mrs. Sara Wilkinson, Miss Ruth Kirk and Mrs. Patsy Edmonds.

The five-member Sharp board considered possibilities of consolidating the rural high school with Rockdale, but voted to continue the 12-grade system another year.

The Sharp rural district includes Sharp, Tracy, Oakville, Duncun, Friendship, Lilac and Val Verde communities.

The school vote will be held in the Sharp and Val Verde schools.

Sharp board members are Boyd, Offield, Garlon Lawrence, Sidney Culp, W. E. Brown, secretary and Nelson Davis, president.

Board To Pick Alcoa Scholar In Field Of 8

Winner of the 1958 Alcoa Foundation scholarship allotted to Rockdale Works will be named March 17 at the final meeting of the selection board and candidates in Rockdale.

The eight students competing for the four-year \$2000 scholarship are from Rockdale, Taylor, Cameron, Thorndale, and Thrall. The Selection Board is headed by Hinton H. Pruett, Milam County Superintendent of Schools.

The dinner will be held at Singer's Grill beginning at 7:30 p.m. Interviews will follow the dinner then selection will be made on the basis of aptitude tests, high school grades, extracurricular achievements, and personality.

All of the candidates are sons or daughters of Rockdale Works Alcoaans. The \$2000 is payable \$500 each school year contingent upon satisfactory grades.

Girl Scouts, Dads To Attend Banquet

Cameron fathers will be guests of their girl scout daughters tonight for the annual father-daughter banquet at Simon-George Memorial Hall.

One hundred scouts and their fathers are expected for the barbeque dinner starting at 7 p.m. A special program directed by Mrs. Anita Schofield will follow the dinner.

Special guests will be Marie Meyer, representative from area headquarters in Austin, and Girl Scout Board members; Mrs. Lester Williams, Mrs. David Shapiro, Narvie Caperton, Mrs. Dana Monroe and Mrs. Carroll Green.

Army To Hear Pro's, Con's Of Location

U. S. Army engineering officials have called for a public hearing 9:30 a.m. March 19 at Georgetown to consider location aspects of the Laneport Reservoir on the San Gabriel River.

The meeting will be held in the Williamson County Courthouse in Georgetown.

O. G. Tumlinson, president of the Milam County Farm Bureau, spoke out in favor of keeping the location of the dam at Laneport where engineers in 1964 recommended its construction.

Georgetown leaders and Williamson County Farm Bureau leaders favor a major reservoir location northwest of Georgetown and another reservoir at Laneport.

Georgetown was heavily damaged by overflow floods from the San Gabriel last spring.

To Hear Both Sides

Col. Walter J. Wells, district engineer, pointed out that the meeting is scheduled to air the pro's and con's of the Laneport location.

"The purpose of the public hearing is to give all people concerned an opportunity to express their views concerning the authorized location of the reservoir and to offer any comments and justification they may have regarding a change in the site of the Laneport Reservoir," Col. Wells said.

The invitation to present views on the reservoir's location went out to public and private organizations and individuals affected by final site location.

To Use Findings

Col Wells pointed out that information gained at the hearing will be utilized in studies for need for and desirability of a new site for the Laneport Reservoir.

The hearing was ordered by the Committee on Public Works of the U. S. House of Representatives. Tumlinson invited all Milam farmers with land in the Little River Bottom to attend the hearing.

He said removal of the Laneport Reservoir to a site further north on the San Gabriel River would affect water control in south Milam County.

Let's Paint Ahead

The weather favors the opening of The Herald's "Paint In March" campaign to spruce up Cameron.

Scores of homeowners were out over the week-end working in their yards and touching up around the house. A number of businesses too were getting new paint here and there in the spring-like change of weather.

The Herald will be running a list of participating concerns and individual property owners each week through mid-April when the Chamber has its annual "Paint Up, Clean Up" drive.

We hope that we may list your business or name as a participant.

It is not any direct material reward that should motivate us in sprucing up Cameron. Rather, it should be a desire to improve Cameron's spirit as a community. We call it civic pride.

We can show civic pride in other ways than just painting or touching up around our place of business or home. But there is never a better sign of interest in improving facilities than getting out the paint brush.

The armed services have a habit of painting "everything that moves." The habit is more than a nuisance factor or just "busy work." It is a means to constantly brighten things up. With the new coat of paint comes a brightening of attitude.

The Herald hopes to run the name of every household and business in Cameron during the drive. It would mean a real desire to brighten our spirits as well as our walls and doors.

THE LITTLE RIVER PHILOSOPHER

Ag Grads Failure To Return
To Farm Doesn't Faze Sage

Dear editor:

With a lot of the experts claiming there are too many farmers as it is, you wouldn't think there'd be any problem to a piece of news I read the other day in a newspaper I found blown against a fence out here which I removed in a hurry as the fence just barely can stand up now without any additional wind resistance, but there's apparently no limit to how hard some people will hunt to find something about the farm problem to worry about.

According to this news item, only 17 per cent of the nation's agricultural college graduates return to the farm when they finish one of the 50 agricultural colleges scattered throughout the United States, and some experts were worrying about this. What would happen, they asked, if only 17 per cent of medical school graduates stayed with medicine?

I guess it does seem odd to have 50 agricultural colleges teaching agriculture and have only 17 per cent of the graduates go into farming, but this is because some people don't understand the situation.

For example, I was talking to a neighbor of mine who has a boy in an agricultural college and I asked him about this.

"Is your boy going to come back and farm when he gets out of college?" I asked him.

"Are you crazy?" he asked me. "I'm sending him to college so he won't have to farm."

I hadn't thought about this, but it may make sense and if the experts are worrying because only 17 per cent of the agricultural college graduates take up farming, think what they'd have to

worry about if 90 per cent of them did it. Talk about an agricultural surplus.

On the other hand, there are those who say the way to cut down on the surplus is to get more experts into farming. This group contends that the more theoretical knowledge a man has of farming, the less enthusiastic he is about going up one row and down another.

This is true in a lot of fields. Most people had rather tell a teacher how to teach their child than to teach him themselves, most people had rather tell a school board how to run the school than get on the board themselves, most people had rather tell a city council how to run the town than to tackle the job themselves, and there are more people willing to tell a preacher how to preach than to preach themselves. I don't know, but I imagine you may run into people occasionally who can tell you how to run your newspaper.

Yours faithfully,

J. A.

Lenten Observance Is Time Of Love

By Rev. E. J. Davis, Jr.

First Methodist Church

Ash Wednesday, February 19, is an important date on the Christian's calendar, marking as it does the beginning of Lent, a six-week period given to thoughtfulness and self-examination, a time to become better acquainted with the life and spirit of Jesus.

To some, Lent means fasting and "doing penance"; to others, merely doing without certain things called luxuries; to still others, throwing away a sin for a period, or the renewal of spiritual vows.

Above everything else, Lent should be a time of Love. Lent and Love go together... more love of God, less love of the things God has made. You may be asking yourself, "What can I be doing these forty days to show God how much I love him?" No two persons will answer the same way. It is an individual matter.

As a man named Miller once said: "Let this period we call Lent be a time during which each in his own way will call back the

soul to strength and quietness, out of the bedlam of over-crowded days... Let us again know the nearness of the Beloved Stranger, Jesus... so that we may go down to the towns and cities of this world... as go down we must... we may take with us something beside the opinions they already hold and the confusion out of which their darkness and confusion have grown."

God wants the hearts of his followers... not for Lent alone but for all time. But, Lent is a convenient season to begin putting away Dishonesty, Impurity, Lying, Unkindness, Disobedience, Selfishness, Laziness, Stinginess, Neglect of Prayer... whatever it is in your life "that stands between."

Shall we then not observe Lent 1958, in such a way that we may hear those voices that persuade us to take the "highway" and not the low? Maybe that some, even, who have lost the way may thrill anew to that "inner joy" in the beauty of the skies and confidence in the goodness of men.

State Capitol

State Finances Low With Oil Cutback

By Vern Sanford

Texas Press Association
AUSTIN—State's fiscal cupboard is bare at the moment. By the end of the month it'll probably be about \$20,000,000 short, says State Treasurer Jesse James.

Texas' treasury has been running in the red during spring months for several years. Situation corrects itself sometime after April when sizable state tax payments come in. For more than a decade the state has come out solidly in the black by the end of each fiscal year.

This year Treasurer James predicts incoming revenue will wipe out the deficit by May or June.

But there's a difference this year. Lagging oil revenues have choked off a sizable hunk of expected tax income. Comptroller Robert S. Calvert, the state's official income estimator, sees another... and worse... deficit by next fall. By the end of the present budget period in August, 1959, he estimates the state will have spent \$32,000,000 "on the cuff."

This estimate holds even if oil production picks up within the next few months.

Meanwhile, state banks are still cashing the state's warrants and holding them until the state gets money in to pay them.

A Penny Saved

With an eye on the state's depleted coffers, the Legislative Budget Board is asking state departments to look for ways to pare expenses.

Board's letter calls on department heads to "review... each activity in your organization to determine if there is anything that can be eliminated without detriment to the citizens of Texas."

Defense Needs Cited

It won't be just Texas that will suffer if oil importing continues, says Railroad Commission Chairman Olin Culberson.

In an Austin speech to members of Texas Service Stations Associated, Culberson took the usual swat at imports for draining some \$1,000,000 a day from Texas economy.

But above this, he said, is the danger to national security if the domestic oil industry is strangled and the country becomes dependent on oil fields "half a world away."

"It's suicidal," said Culberson. He doesn't see prospect of cheaper gasoline from imports, said the Railroad Commissioner. Europeans who get all their oil from the Middle East, pay from 80 cents to \$1.10 per gallon, he said.

No Trend Yet

Texas Employment Commission's latest report showed a slight drop in number of jobless... from 79,604 to 79,079.

But the change was not enough to indicate a "turning point," the hoped-for spring up-swing in job activities.

TEC's figures include only those unemployed persons covered by unemployment insurance.

Loan Study Set

Small loan study group of the Legislative Council will hold a series of fact-finding hearings over the state. First will be April 4 in Houston.

THE SEARCH CONTINUES

Throughout the history of mankind runs the account of a double quest: *Man searching for God*... our restless eagerness to understand and please our Creator has paralleled the centuries of progress. *God seeking Man*... ceaselessly, patiently, His Love has lighted the ages, ever reaching toward our hearts, encompassing our souls.

Yet no powerful lens ever devised will aid in this search. Our quest finds its consummation not beneath the lens of a microscope—but beneath the spire of a Church!

What man does not recognize his own inability to cope with the complexities of life?

There awaits you next Sunday in the Church of your choice the peace and assurance that generations have sought... the FAITH which unites Man and God.

THE CHURCH FOR ALL... ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

Ninty Guests Attend Eastern Star Tea

Ninety guests registered at the O.E.S. Chapter tea honoring Mrs. Mildred Covey, Deputy Grand Matron, Dist. 4, Sec. 6 and Mrs. Gertrude Harsha, Grand Representative of Virginia to the Grand Chapter of Texas, given Sunday afternoon at the home of the Worthy Matron, Mrs. Grace Reid, at 605 East Seventh Street.

Mrs. Reid and Dean White, Worthy Patron of the local chapter, greeted guests and introduced them to honored members, Mrs. Covey and Mrs. Harsha.

Mrs. Mable Dodson registered guests at a table covered with a white linen cloth. A silver vase with red and white carnations and satin streamers in red and white, the worthy matron's colors, were used on the table.

Mrs. Maydee Hutcherson, of Palestine, sister of Mrs. Harsha, and Mrs. Stella Brock presided at the silver service. Others in the house party included Mrs. Maud Ryan, Mrs. Hallie White, Mrs. Johnnie Lee Richards, Rita and Helen Reid.

The dining table was covered with a white pineapple linen cloth and centered with an arrangement of white carnations and candytuft. A large tray held an assortment of sandwiches shaped in stars. Mints were molded in red roses and white stars.

The buffet held milk glass candle holders with a compote arrangement of white candytuft. Gold candles were used. Directly in front of this was a white styrofoam Bible with gold edges and a satin streamer across it holding a miniature gavel and Eastern Star emblem.

In the living room a "Star Tree" was used on a table, while the coffee table held a styrofoam star covered with tiny nylon net roses. Vases of spring flowers were used in other rooms.

Distinguished guests of the O. E. S. attending were: Mr. Earl

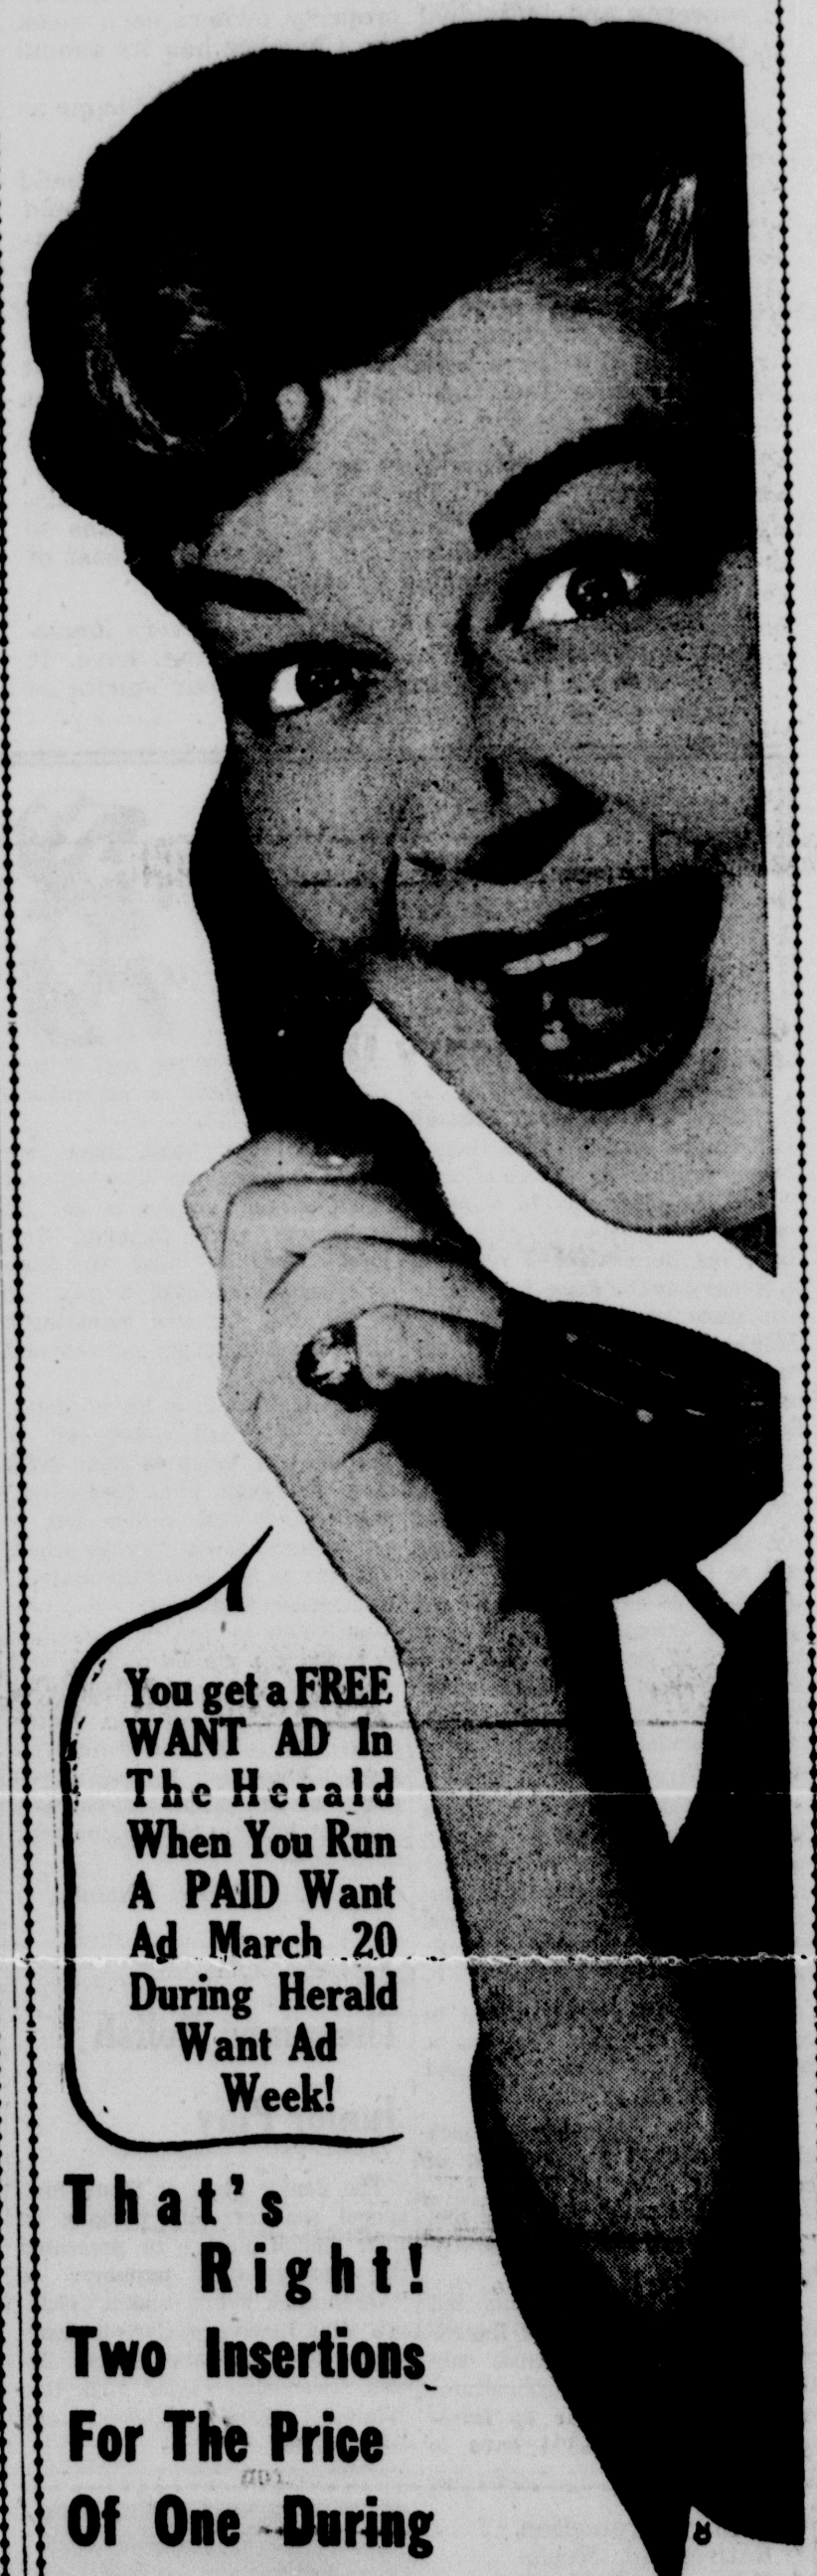

G. Manning, Past Grand Patron of Temple, Mrs. Ima Holcomb, Grand Ada, Bryan, Mrs. Lola Daniel, Grand Esther, Bryan, Mrs. Lelia Black, Grand Warder, Bryan, Mr. Alton Janeway, Grand Sentinel, Temple, and Mrs. Katherine Manning, Grand Representative of New Mexico to the Grand Chapter of Texas.

AT DUNCUM MOTORS — Customers find complete sales and service for Plymouth and DeSoto cars, auto radiators and used cars at Duncum Motors, S. Travis at W. First St., Cameron. Coleman Duncum, agency owner, displays a new 1958 Plymouth and the latest equipment in his radiator repair department.

He added Inland radiator equipment this year, including the special Inland Flo-tester. Duncum Motors has a competent staff ready to serve your every automotive need.

Duncum Motors Featuring 3-Fold Auto Service, Sales

Duncum Motors, corner of W. First & Travis, Cameron, offers three-fold service in new and used car sales, radiator repair and auto repair, according to Owner Coleman Duncum.

A DeSoto-Plymouth dealer at the same location for 22 years, Duncum has a well-staffed operation to meet the service and sales requirements in new Plymouths and DeSotos, Mercury out-board motors and auto air conditioning. But the newest feature of Duncum's operation is the installation of a complete department of Inland Radiator equipment, including the new Flo-Tester.

The new machine is used to determine whether a radiator is plugged, Duncum points out.

Measures Flow

"It measures exactly the gallons-per-minute flow of water through the radiator," Duncum says. "The extent of plugging is quickly determined and immediate repairs can prevent costly engine damage later on."

Duncum extends a cordial welcome to the public to get radiator repair and service as well as regular auto general repair at his shop.

"Our combined 45 years in auto experience qualifies us to give the

motorist complete service whether in sales or service," Duncum points out.

Duncum now has a used car lot at Main and S. Travis where he keeps a stock of fine used cars.

Both his new and used car sales feature fair dealing with emphasis on "serving what we sell."

"We are confident that our customers want to know that their new automobile will be taken care of long after they purchase it," Duncum says. "We provide competent service work."

Well Stocked

Duncum's operation includes a well-stocked line of parts for both Plymouth and DeSoto.

And he specializes in sale of Mercury outboard motors and air condition units for cars. "Air conditioning for autos is one of our specialties," he emphasizes.

Duncum is active in several civic and church activities. He is a member of the Kiwanis Club, former president of the Cameron Saddle Club and a member of the Church of Christ.

He and Mrs. Duncum reside at 1910 N. Jackson. They have two children, John Morris, 20, a junior at Abilene Christian College, and Mary Alice, a sophomore at Yoe High School.

44 Years

**Experience Backs
Service, Sales
At Mercantile**

Milam County farmers have known the reliable service and experience they will find at Maysfield Mercantile Co., on Waco Highway, Cameron.

And Milam Countians know that W. C. Freeman, secretary-treasurer and manager of the company, has 11 years managing experience to give him the background to understand thoroughly what farm machinery must do for the farmer.

Maysfield Mercantile has held the J. I. Case tractor franchise 17 years, offering a complete line of equipment that includes nine different 1958 tractor models.

The long-established Milam County firm also holds the service and sales franchise for Willys Jeeps.

Other Officers

Other officers of Maysfield Mercantile are J. C. Freeman, Maysfield, president; and H. L. Yager, Maysfield farmer and rancher. J. C. and W. C. Freeman are brothers.

"We offer outstanding equipment repair services as well as new equipment sales," Freeman points out. "Our two mechanics, Raymond Talafuse and Thomas Nichols, have the know how to repair that farm implement for good working order."

Maysfield Mercantile can offer the farm equipment buyer a good selection of equipment on hand, Freeman says. No waiting is necessary for most models of tractors. "We have them on the premises."

"And our financing makes it easy for the farmer to get a good trade-in price for his old equipment and gives him up to four years to pay it out," Freeman continues.

Case Franchise

In 1941 Maysfield Mercantile obtained the J. I. Case franchise and operated in Maysfield until 1947. Then the company moved to its site on US 77. In 1951 the Willys Jeep franchise was added. The operation has maintained a well-supplied shop where they service all makes of tractors and equipment.

"If you want Class A farm equipment and repair," Freeman notes, "come to Maysfield Mercantile."

Seaman Participates In Navy Operation

NORFOLK, Va. (FHTNC) — Carlton J. Van Winkle, seaman, USN, son of Mr. and Mrs. G. W. Van Winkle of Cameron, arrived in Norfolk, Va., Feb. 26, aboard the attack cargo ship USS Wyandot after spending three months in Antarctica with the Navy's Operation "Deep Freeze III".

Leaving Norfolk Nov. 28, the Wyandot, in company with the Coast Guard icebreaker USS Westwind, proceeded to Antarctica with supplies and replacement personnel for the U. S. Ellsworth International Geophysical Year station located on the Filchner Ice Shelf in the Weddell Sea.

After a brief stop in Dakar and Christmas in Capetown, Africa, the vessels headed for the cold region. The Westwind broke through ice packs for two days and led the Wyandot to the entrance of the Sea on January 7. The final two-days of the 44 day journey were smooth sailing and the two vessels were welcomed on January 9, by a group of U. S. scientists and navy men on the edge of the shelf.

Mrs. Whites' Jam Fruit Squares
Are Delicious Served With Coffee

A family favorite at the O. A. White home is Jam Fruit Squares. The recipe was given to Mrs. White by a friend in California about 12 years ago and is perfect to serve at morning coffee entertainments.
Jam Fruit Squares
1 2-3 cups flour
1/2 cup brown sugar
1/2 teaspoon salt
3-4 cup shortening
2 egg yolks
1 teaspoon vanilla
Cream shortening, add sugar and egg yolks and beat well. Add dry ingredients and vanilla and mix. Put mixture in an 8x8 greased square pan and press down. Bake 14 minutes at 371 degrees.
Remove from oven and let cool. Spread with favorite jam. Mrs. White suggests apricot or peach.
Spread with meringue: 2 egg whites, 1/4 cup sugar, 1/4 teaspoons cinnamon, 1/4 cup chopped nuts, and bake for twenty minutes at 325 degrees.
Cool and cut in squares.

FARM SCENE

Roy Alford Improves Farm Pasture Land

By Wayne Mann

Roy Alford, cooper with the Taylor Soil Conservation District, who lives about six miles northwest from Rockdale, is making good progress towards getting good pastures developed on his farm.

When Roy became a cooper with the district he indicated that he was very much interested in getting good permanent pastures developed. Since a large part of this 270-acre farm was covered with mesquite and other brush he

realized that the first step in pasture development would be to get the brush cleared off so grass could grow.

So far, approximately 45 acres of brush have been cleared and deep plowed to loosen up the hard pan and to allow more air and water to penetrate deeper into the soil.

Condition Soil

Another very important step in seeding or sodding of permanent grasses in developing pasture is to have soil in good condition. To accomplish this objective and at the same time improve soil fertility and protect the cleared land from washing Roy planted a mixture of oats, hubam clover and vetch on about 25 acres of the steeper cleared land.

The 25 acres were also fertilized with 250 pounds of 10-20-10 fertilizer per acre. About 20 acres of the 45 acres that have been cleared are along a small creek bottom that now has a good stand of rescue grass that came in volunteer after the clearing was done and this area has furnished good winter grazing.

Bermuda grass is also coming in on this area and in a few years this pasture should develop into a good Bermuda pasture.

The 45 acres that have been cleared and planted to oats, hubam clover and vetch and the rescue grass that came in volunteer as a result of the brush clearing have furnished good grazing for 68 head of cattle since about the first of December of last year and there is still a lot of good grazing left in this pasture. Alfalfa Surplus Available For Milam Farmers

Word has been received by the Milam County Farm Bureau that a surplus of alfalfa in Wisconsin is available for county farmers needing the additional roughage, S. W. McClaren reports.

In a letter received from Curtis Hatch, president of the Wisconsin Farm Bureau Federation, Hatch says that there is a surplus of good quality first and second crop alfalfa.

If there is need for roughage in this area, anyone interested should correspond with Harvey Clauer, Mineral Point, Wisconsin. Clauer will quote prices, McClaren said.

For any pasture improvement work was done on these areas they were practically worthless as far as grazing was concerned. In fact the brush was thick in many places that a cow could not walk through it.

Roy's longtime objective is to get all the brush cleared off from all the pasture land over a period of several years and get some type of permanent grass established in all the pastures. The permanent grasses that he is interested in are Bermuda, Texas winter grass and little bluestem and the rescue grass for temporary winter grazing.

Plans Winter Grass

He plans to seed some of the more sloping mesquite land to Texas winter grass this coming fall if seed can be secured. This is a permanent grass which makes most of its growth during the fall and winter months and provides good winter grazing.

The Bermuda and little bluestem are late spring and summer growing grasses and furnish grazing during these seasons of the year.

Roy also has a good system of cross fences which permit rotation grazing between the pastures and this also permits deferred grazing to be practiced. Both of these practices are also very important in developing and maintaining good pastures.

In order to insure an adequate year round water supply for his livestock one new pond was constructed and an old pond was enlarged. Roy is well pleased with the progress that has been made in his pasture development program and he is looking forward to the time that the overall plan that he has in mind for the entire farm can be completed.

Isolation, Rogueing, Winter Tests Mean Better Quality Hybrid Seed

COUNTY AGENT NOTES
J. D. Moore, County Agent

A number of hybrid grain sorghum fields last year contained large numbers of "off type" plants. This condition was due to conditions under which the planting seed were produced.

Requirements for producing "true to type" planting seed include "isolation" from other sorghums and a rigid "rogueing" program. By "rogueing" we refer to continuous inspection of seed plots to remove "off type" plants.

We can help our seed dealers and farmers get better seed this year by informing them about steps the seed producers have taken to put better quality seed on the market.

Almost all of the planting seed produced for this year has been "winter tested" in Mexico or the Lower Rio Grande Valley. The seed men have samples from their production fields growing in these places and they are being checked for "off type" plants by members of the Foundation Seed Section of the Texas A&M College System.

Information on the number of off-type plants appearing in each planting from a sample is furnished to the seedsmen who produced it. The seedsmen are at liberty to

use the results to indicate seed purity.

Most farmers will plant either a standard variety or one of the new hybrids. By standard varieties we refer to 7078, Martins, Redbine 60, Redbine 66, and Plainsman.

These varieties are all good and most farmers know of their performance. Of the hybrid varieties, Texas 610 and the DeKalb numbers are pretty well accepted by farmers. Detailed information on the standard varieties as well as the Texas hybrids is available at the County Extension office.

Generally, the standard variety 7078 is the most widely planted maize in Milam county. During recent years, the scarcity of moisture has been a limiting factor. This should be no problem this year and farmers should get good yields from a wider selection of seed varieties.

County 4-H Clubs

Cite National Week During March 1-8

By Alice G. Hughes
Home Demonstration Agent
March 1-8 was National 4-H Club Week.

The nation's 4-H Club members, more than 2,200,000, observed National 4-H Club Week.

The 111,535 Texas 4-H Club members were recognized by Gov. Price Daniel in his greeting to them when he said, "As 4-H members you have contributed much to the material wealth of Texas and the Nation in raising the quality of agricultural production, but you yourselves are our richest resource. May you continue to build yourselves, your homes and communities during the coming year, and thus help build a greater America."

4-H Club work helps teach boys and girls how to be better leaders. There's opportunity for members to assume responsibility in club programs and community and county activities. We have 25 clubs in Milam county, with 502 members. Our county 4-H council meets every other 4th Saturday at 10 a.m. Visitors are always welcome.

Members of 4-H clubs, individually and as a group, participate in community service activities.

Research Finds Time Saver For Cotton Farmer

COLLEGE STATION—You can save yourself one complete trip over the field at cotton-planting time by following advice of researchers of the Texas A&M College System.

Lambert Wilkes, who specializes in mechanization problems in the Department of Agricultural Engineering, says a rubber-flap surface press-wheel used on the planter, in conjunction with a modified planting shoe, gave significantly higher numbers of plants in test areas during the past two or three years.

Most farmers now make a separate operation of the pressing process because most packing

Short Cattle Run Sells In Demand At Local Auction

A short run of livestock sold in excellent demand in the Thursday sale at Cameron Livestock Auction, officials said.

Greatest increase in prices were on good and choice slaughter calves, officials said, while demand was especially good for replacement-kind cows and calves.

A total of 102 sellers sold 375 cattle and three sheep to 47 buyers.

Officials said good light stocker cows also are in strong demand. Thursday prices were:

wheels clog with mud and don't give good results when used on the planter, Wilkes says.

Although Wilkes and others in the department made a special wooden wheel for their tests, he says the standard steel wheel also should take the rubber-flap modification with good results.

The scientists used 15-inch-long flaps wide enough to fit the wheel, which they cut from an old tractor inner-tube. These flaps are attached to the wheel for the first

five inches, leaving 10 inches of the trailing end free to overlap the next flap, and to fall freely to the ground ahead of the rolling wheel.

They modified the planter shoe by lengthening it, squeezing it down to about one-inch outside width at the seed-chute, and adding a small piece of angle-iron between the cutting blade and the seed-chute to give a more conventional V-shape to the seed-trough.
